Ayushi

Phone: 8278835691 | Email: chaudharyayushi785@gmail.com | Github: skiee9 | Linkedin: ayushi-chaudhary-584225234

Full Stack Developer with expertise in React.js, Redux, Tailwind CSS, Node.js, Express, and MongoDB. Skilled in building scalable, responsive, and high-performance web applications. Experienced in RESTful API integration, authentication, real-time features, CI/CD pipelines, cloud deployment (Vercel, AWS), version control (Git), and Agile development. Strong focus on writing clean, maintainable, and production-ready code, delivering optimized user experiences and robust software solutions.

EDUCATION

Computer Science and Engineering, *Himachal Pradesh Technical University* — Dec 2020 - Aug 2024

CERTIFICATIONS

CodeHelp, *MERN Stack Development* — 🔗 Click To View

Skills

Technical Skills MongoDB, Express.js, React, Node.js, Redux, RESTful APIs, JavaScript, Git, Tailwind CSS, TanStack Query, CI/CD

Soft Skills Attention to Detail, Problem Solving, Adaptability, Time Management, Teamwork, Effective Communication

Experience

Scale AI, *LLM Full stack developer* — Apr 2025 - Present
- Freelance Full Stack Developer at Scale AI in collaboration with G2i, specializing in AI-powered web applications and training AI models for full-stack development workflow.
- Experienced in building scalable solutions with React.js, Node.js, Express, and MongoDB, integrating APIs, and implementing LLM-based features for real-time data processing.
- Skilled in CI/CD, cloud deployment, and version control, with a focus on delivering production-ready, maintainable, and high-performance applications.
- Trained and fine-tuned AI models to enhance full-stack development workflows.

Internshala, *ISP* — May 2025 - Jun 2025
- Collaborated with student networks to drive user engagement and brand awareness
- Generated detailed reports on outreach performance and conversion metrics

Labmentix, *AI/ML Intern* — Feb 2025 - May 2025
- Developed machine learning models for predictive analytics
- Optimized data preprocessing pipelines to improve model performance
- Implemented and validated AI algorithms using Python and TensorFlow
- Collaborated with cross-functional teams to deploy scalable AI solutions

Unified Mentors Private Limited, *Full Stack developer* — Jan 2025 - Feb 2025
- Developed and maintained scalable web applications using the MERN stack
- Integrated RESTful APIs to enhance front-end and back-end interoperability
- Optimized MongoDB queries and improved application performance
- Collaborated with cross-functional teams to deliver agile software solutions

Projects

Streamify

Streamify is an interactive language learning and communication platform where users can connect with speakers from around the world. Chat, video call, and practice languages in real time with a fully customizable and engaging interface.
- 🚀 **Deployed Link :** https://streamify-videocall-app.onrender.com/
- ⚙ **Github Repo :** https://github.com/Skiee9/Streamify
- Real-Time Messaging: Users can chat instantly with typing indicators and emoji reactions for better interaction.
- 1-on-1 & Group Video Calls: Supports video conferencing with screen sharing and recording capabilities.
- Global Connectivity: Connect with users worldwide to practice different languages and improve communication skills.
- Secure Authentication: Implemented JWT-based authentication and protected routes to ensure secure access.
- State Management: Efficient global state handling using Zustand for smooth UI interactions.
- Streaming API Integration: Powered by Stream API for seamless real-time messaging and video communication.

Fable & Co.

Fable & Co. is an e-commerce website that reflects a brand that blends storytelling, creativity, and elegant design perfect for a modern e-commerce experience.
- 🚀 **Deployed Link :** https://fable-co.vercel.app/
- ⚙ **Github Repo :** https://github.com/Skiee9/fable-Co.
- User Authentication: Sign-up/login with protected routes and session management
- Interactive Product Catalog: Dynamic product listing with search, filters, and sorting functionality.
- Shopping Cart & Checkout: Fully functional cart with add/remove items, quantity adjustment, and seamless checkout flow.
- Order Management: Users can view order history and order details.
- Responsive UI/UX: Designed pixel-perfect, mobile-friendly interfaces using React.js, Tailwind CSS, and Styled Components.
- Ensured high attention to detail in UI/UX design, resulting in an intuitive and user-friendly shopping experience.
